

The HMA® Covers Not Only What You Need But What YOU WANT

In addition to covering the vast majority of your necessary, out-of-pocket expenses for your health insurance or Medicare, the Health Matching Account provides you with more freedom and medical purchasing power than any other medical savings account available.

The HMA® is a medical savings account that feels similar to an HSA in that you can access its benefits on a debit card, but the similarities end there. **Unlike an HSA**, the growth of your HMA® is guaranteed and substantial. HMA® owners have access to an average of \$2 or more in medical benefits for every \$1 that they contribute into the program on a monthly basis as the program progresses, and you can also continue to contribute into it after you reach Age 65.

With the HMA®, you gain the freedom to opt for other medical services that you might have not been able to afford before including any experimental and elective medical procedures such as lasik, plastic surgery and many others performed by licensed medical doctors.

With its rich benefits that increase for you each and every month, the Health Matching Account can provide you with the safety net you will need to save money on the vast majority of your out-of-pocket, medical expenses that your health insurance or Medicare requires. In addition, the HMA® can also provide you with the ability to safely increase your major-medical deductibles. Even better for you, this will secure additional savings over time on your actual health insurance premiums without the burden of taking on added risk because your HMA® will have you covered every step of the way.

The HMA® is not health insurance.
